2. What is the Shariah concept that is applicable?

- The facility is structured based on Shariah concept of Tawarruq.
- A Tawarruq consists of two sale and purchase contracts. The first involves the sale of a commodity by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same commodity to a third party on a cash and spot basis.
- Brief structure are as follows:

No	Description
i	<p>Upon request and undertaking by the Customer to purchase an identified commodity (“Commodity”), the Bank or its “agent” as appointed by the Bank purchases the Commodity from a supplier, on cash basis. The Bank or its agent is also authorized by the Customer to conclude sale and purchase transactions that will be performed afterwards and to take possession of the Commodity (if requested by the Customer).</p> <p>“Commodity” means any commodity acceptable by the Bank e.g. crude palm oil or any other Shariah compliant commodities (excluding ribawi items in the category of medium or exchange such as currency, gold and silver)</p>
ii	<p>The Bank or its agent then sells the Commodity to the Customer at the Selling Price based on Murabahah concept (comprising of Purchase Price and disclosed profit margin), to be paid on deferred basis. The Customer is now the owner of the Commodity upon acceptance by the Bank or its agent.</p>
iii	<p>Upon instruction by the Customer, the Bank or its agent sells the Commodity to other supplier, on cash basis for disbursement purpose.</p>
